

## May Eliminate Rail Crossing On Boulevard

No Definite Plans Prepared—Disagreement Between Railroad and State Officials Whether Crossing Is Within City Limits—No Accidents There Involving Trains Since January 1, 1928.

A hearing before C. R. Chase, assistant engineer of the Public Service Commission, was held Wednesday afternoon at the court house to determine whether public welfare demanded the elimination of the Wallkill Valley Railroad crossing at grade on the Boulevard in the city of Kingston. This crossing, which is located on road number 229, known as the Kingston-High Falls route running through Rosendale, is a part of the 1929 program of elimination should it appear to the commission that public welfare demands its elimination.

There arose a question at the hearing as to where the crossing is located. The railroad officials, represented by Mr. Jaynes of the engineering department, contended that the crossing is wholly outside the city limits while the Department of Public Works represented by E. W. Wendell contended that the crossing was within the city limits and stated that for some time the state maintenance had begun at a point beyond the tracks. In making this statement Mr. Wendell stated that if the crossing was wholly outside the city he felt certain that the city officials would long ago have abandoned the maintenance of the highway past the crossing and up to the city line. This question will be settled in a study of the situation which the railroad was directed by the commission to make of the crossing.

The only purpose of the hearing was to determine whether there was need of the elimination and if so, if it should be included in the 1929 elimination program. No plans were presented and there have been no plans prepared either by the railroad or the Department of Public Works although it is understood that the elimination if made will be by means of a viaduct under the railroad tracks in order to secure a proper alignment.

The cost of elimination will be borne 40 per cent by the state, 10 per cent by the county and 50 per cent by the railroad.

Engineer Describes Conditions.

B. V. Roach, engineer of the Department of Public Works, testified as to the conditions at the crossing. He stated that the crossing is a steep pitch in the roadway representing a 5 per cent grade. The crossing, he testified, was a dangerous one and by reason of its extreme dangerous condition unusual caution was exercised and there were no serious accidents as a result. On the day he made his study of the crossing, he said, he had observed a truck coming from the direction of Rosendale. The truck had entered on the crossing and the driver had been probably warned by the assistant there. The truck was stopped on the crossing and the driver had been probably warned by the assistant there. The truck was stopped on the crossing and the driver had been probably warned by the assistant there.

Causes of Vehicles.

A census of the vehicles using the crossing was taken last August 18. Between 7 a. m. and 7 p. m. the following vehicles were observed using the crossing: 1,030 automobiles, 135 out of state license, 108 light trucks, 25 trucks and busses, no horse drawn vehicles, 10 pedestrians and 8 motorcycles. That day there were 4 freight trains, 7 passenger trains and 4 speedsters operating over the crossing.

So far as he knew there had never been any accidents at the crossing involving trains and vehicles.

Considered Crossing Dangerous.

Mr. Charles, driver of one of the buses, stated that he considered the crossing dangerous and he had observed at times accidents which had happened at the crossing. He did not know if there had been a train involved or not but he saw cars lying on the road and against the fence. A car of A. D. Rose of this city he had once observed against the pole at the crossing but he did not know how the accident happened. Cars were frequently seen by him as he passed over the bank.

## Belated Winter Visits East and Piles Up Snow

(By The Associated Press).

A belated winter made up for lost time in the east today. From Dixie northward to the border and from the Atlantic coast west through Pennsylvania snow fell through most of the night and continued piling higher during the day.

No serious transportation tieups were reported but as the storm continued snow systems were slowed down and snow plows worked overtime to keep the way open.

Northeast gales were predicted for tonight with continued snow and freezing temperatures.

As much snow fell in New York city as there had been all winter and in other places it was far deeper. Ten thousand shovellers were called out in Manhattan to dispose of the half foot of snow that steadily deepened.

Nashville, Tenn., reported 14 inches of snow; Charleston, W. Va., had 12; Philadelphia seven and Harrisburg eight. It snowed steadily in Albany, N. Y., and other upstate points, and New Jersey and the New England states got their fall share of winter's most widespread storm.

## Her 4th Marriage Ist to First Husband

To be married four times to three husbands is the experience of Mrs. Joseph Cashdollar, 48, of Harrison street, Poughkeepsie, after the last ceremony Monday night, performed by Jesse Atkins, justice of the peace, by which she was united for the second time to Joseph Cashdollar, 48, of Port Ewen. He has been married three times to two wives.

Twenty-five years ago, Mrs. Cashdollar, then Mary Elizabeth Bogler, was married to her latest husband. Ten years of married life was terminated in 1914 by the divorce court and both principals remarried. Death separated Mrs. Cashdollar from her second husband and a third ceremony was performed, only to be again ended in the divorce court in 1921. Meanwhile Cashdollar also remarried and lived with his second wife until her death.

Monday afternoon Mrs. Mary Elizabeth Bogler, obtained a license permitting her to marry her first husband and resume one of her former names, Cashdollar. The newlyweds plan to make their home in Port Ewen, where Mr. Cashdollar is employed as a boatman. Poughkeepsie Evening Star.

## Hutton Held For Grand Jury

Albert Hutton, arrested Wednesday on a charge of manslaughter, second degree, by State Troopers, was unable to gain his release from the county jail Wednesday afternoon as there was no judge available before whom he might be admitted to bail. County Judge Fowler and Supreme Court Judge G. D. H. Hasbrouck were both out of town. Mr. Hutton was ordered to locate some other available judge and have bail fixed and secure the release of his client who is being held for the action of the grand jury.

Hutton following his arrest was arraigned before Justice of the Peace Church at High Falls and held to await the action of the grand jury. Hutton is charged with having caused the death of Marie Newburgh on January 25 when a delivery truck owned by Nathan Parsonet on which they were riding met with an accident near Stone Ridge in the town of Marlborough.

## Busy All Night Removing Snow

The street department under Superintendent Frank Mills worked all Wednesday night removing snow from the uptown and downtown business sections of the city. Both snow loaders were gotten out and used in loading the trucks that carried away the snow.

About 5 o'clock this morning another storm broke over the city and snow fell throughout the morning.

Board of Education Meeting.

A special meeting of the board of education will be held Monday evening, February 25, in lieu of the regular meeting on Friday evening, February 22.

John T. Cahill, who represented property holders, asked if there was any plan at this time as to how the elimination would be accomplished, whether by a subway or viaduct, and both the state and the railroad stated no plans had been made. It is understood that the depression of the roadway under the tracks, however, is the one which has been given consideration.

Mr. Chase instructed the railroad to make a study and prepare plans for the elimination, to be ready at a hearing to be held May 1 at 2 o'clock, and an adjournment was taken until that time.

## New Show Rooms For Oldsmobile

Southard & Beichert Lease First Floor of Building at Broadway and Field Court—Extensive Alterations to Be Made to Completion.

Wednesday afternoon a lease was signed whereby the firm of Southard & Beichert, Inc., local Oldsmobile dealers, will take over the first floor of the Fessenden building at Broadway and Field Court for a show room for Oldsmobile cars.

This building was recently vacated by Carl & Fessenden who conducted a retail store there. The lease includes the entire ground floor of the building which will be used as offices and show rooms by Southard & Beichert, Inc.

Alterations will be commenced and rushed to completion as rapidly as possible and it is expected the show rooms will be available by March 1. There are show windows on both the Broadway and Field Court side of the building and this will give ample space for showing the new line of Oldsmobile cars. On the floor will be space for showing at least ten cars.

Southard & Beichert formerly occupied show rooms on Broadway near the West Shore crossing but their rooms were entirely too small and last fall they were closed and the sales department moved to the service station at 11-13 Railroad avenue. The service branch on Railroad avenue will be continued and the Broadway place will be devoted entirely to offices and salesrooms.

Almost directly opposite the Broadway Theatre, the new show rooms are ideally located on a portion of Broadway which is rapidly becoming one of the retail centers of the midtown section.

## Probe for Public Service Laws

Joint Introduction of Bill by Democrats and Republicans Supplemented by News That Governor Favors Survey.

Albany, Feb. 21 (AP).—Governor Roosevelt today gave impetus to the legislative move to investigate the state public service commission laws by his expressed approval. Coupled with the joint introduction of a bill by Democrats and Republicans for such an investigation, came the news that the governor plans to send a message to the legislature recommending a survey.

"I am heartily in favor of a study of the whole subject of regulations of public utilities by a commission or committee," the executive said today when questioned concerning his attitude toward the action of the legislators.

"The power of holding companies in the public utility field and alleged failure of the public service commission to conduct comprehensive investigations have interested these backing the move for an investigation. Assemblyman Willis H. Sargent, Republican, of Oneida, one of the introducers of the companion bills, said he believed an investigation could not be properly conducted by any single individual.

The assemblyman declared there existed in the public mind "widespread suspicion concerning public utilities and gave doubt as to the effectiveness of their present regulation."

GOV. ROOSEVELT WANTS FEDERAL CENSUS USED

Albany, Feb. 21 (AP).—The campaign of former Governor Smith to have the state census, bans for re-apportionment, abolished, was renewed today by Governor Roosevelt. In a message to the legislature, Governor Roosevelt urged the enactment of legislation to allow the federal census to be used for the purpose of reapportionment of Senate and Assembly districts in 1930.

EXTEND ELECTRIC LINES INTO TOWN OF HARDENBURGH.

Albany, Feb. 21.—The New York State Electric Corporation yesterday petitioned the Public Service Commission for permission to extend the electric distribution system into the town of Hardenburgh, Ulster county, and serve residents there with electricity for light, heat and power. The company was granted a franchise by the town board on January 3.

Winced in Florida.

Clearwater, Florida, Feb. 21 (Special).—The following residents of Kingston and vicinity, are in Pinellas county now, and have registered within the past two days; mostly in St. Petersburg: Mr. and Mrs. H. Robinson, Kingston, N. Y.; Miss Jane Houghton, Kingston, N. Y.; Mr. and Mrs. H. W. Maynard, Highland, N. Y.; John A. White, Hudson, N. Y.; Mr. and Mrs. Charles A. Powell, Kinderhook.

Blame Blows Window Probe.

Washington, Feb. 21 (AP).—Immediate consideration of the House resolution authorizing a subcommittee to investigate charges against Federal Judge Francis A. Winter of the Southern District of New York was blocked today in the Senate by Senator Blaine, Democrat, South Carolina.

## Dry Raiders on Derrenbacher St.

Prohibition officers from the local office assisted by members of the local police force on Wednesday afternoon executed a search warrant at the place of Louis Galardi, 2 Derrenbacher street. Galardi, who is the alleged proprietor of the place, was arrested and arraigned before U. S. Commissioner A. C. Connelly and held in \$500 bail for appearance at a hearing on March 5. Judge Harry E. Schrick appeared for defendant.

In the place the agents found a quantity of alleged whiskey, beer and home brew outfit. After samples had been taken the remainder of the stuff was destroyed. There was about 45 gallons of beer mash found in the place.

## Doran Blames Local Officials

Prohibition Commissioner Says Unsatisfactory Conditions Are Due to Local Authority Failing to Assume Its Proper Obligation.

New Haven, Conn., Feb. 21 (AP).—Speaking at Yale University last night, James M. Doran, prohibition commissioner, placed much of the blame for unsatisfactory conditions on failure of local authorities to "assume its proper obligation and enforce the criminal law."

The commissioner also declared that the term "poison alcohol" as applied to industrial alcohol was unwarranted and there was no evidence that deaths recently occurring in New York city from wood alcohol were caused by industrial alcohol in the form in which it was denatured under government supervision.

Doran said the movement on the part of some local authorities to evade their responsibilities took form as soon as the prohibition act became law and that in some cities corrupt political machines, through the police department, "made an unholy alliance with the underworld and contributed in no small degree to the building of the illicit liquor ring."

"One of the prohibition administrators," he asserted, "whose headquarters is in a large eastern city, told me that he was of the opinion that during the past year more speakeasies were raided by the local police for failure to pay graft than for the fact that they were obviously violating the state law as well as the federal law."

"Judge Swanson, the new state attorney of Cook county," he continued, "is out to break organized crime and extortion in Chicago, and my prediction is that he will do it with the help of the good citizens."

"The same merchant, who drinks his highball in complacency in his club, is beginning to see the connection between liquor lawlessness and racketeering on business. How many other cities, large and small, need a cleaning can be left to the conjecture of the respective residents."

## Kills Girl, Wounds Twin and Himself

East Orange, N. J., Feb. 21 (AP).—Margaret Bowes, 20, was shot to death and her twin sister, Frances, seriously wounded today by Peter J. Mooney, sergeant of the Lackawanna railroad police, who then turned the gun on himself.

Mooney, the police were told, had been a boarder in the home of the Bowes and had paid court to Margaret, but recently had been jilted by her.

The sisters were employed at the plant of the Amalgamated Toy Company here as toy assemblers, and were on their way to work when the shooting occurred.

Mooney, according to police, stepped up to Margaret, whipped out a revolver, placed it against her neck, and fired twice. He then turned on Frances, police said, and fired two bullets into her body.

Mooney then ran about a block and shot himself.

Mooney shot himself over the heart. Frances and he were rushed to a hospital, both in a serious condition.

In Mooney's pocket was found a note saying "murder is the only way I can prove my love for this girl."

## Was Disorderly On a City Bus

Harrison Winchell of Meadow Street Failed to Behave Himself, Was Ejected From Bus and Arrested.

Harrison Winchell of 48 Meadow street, who is employed by the city, got aboard one of the city buses yesterday but behaved in such a disorderly manner that he was ejected from the bus at Cedar street and Broadway and was placed under arrest by Fred Storms, the bus driver, who turned him over to Officer Kess.

While the officer was according Winchell down Broadway toward the city hall, Winchell's friend, John Hughes "Batted in" and was arrested by Officer Benson who charged him also with disorderly conduct.

Both men furnished \$25 cash bail for their appearance in police court this morning at which time they entered pleas of guilty and were fined \$10.

## Cruiser Trenton Ordered to Chefoo

Reported Uprising in Shantung Leads to Orders for U. S. Light Cruiser to Proceed to Scene of Disturbance.

Manila, Feb. 21 (AP).—The light cruiser Trenton left Manila today under orders to proceed to Chefoo, owing to a reported uprising in Shantung. The Trenton proceeding under ordinary speed, is due at Chefoo Monday morning.

Reports from Chefoo ten days ago said 3,000 former Peking soldiers who had been mustered into the Nationalist army had revolted at Lungkow, Shantung. There was fear then that the mutiny would spread to other towns and garrisons.

Later reports, which indicated that this may have happened, said that a battle was imminent west of Chefoo between loyal Nationalists and rebels. Missionary women were evacuated from several towns in the affected area, although men remained at their posts.

## War Lord Leaves Shanghai

Shanghai, Feb. 21 (AP).—Reliable information at Dairen, Liaotung (Japanese territory) today said that Chang Tsung-Chang, war lord and former military governor of Shantung, left that city yesterday for Chefoo, Shantung, center of anti-Nanking maneuvering.

Chang-Tsung Chang was one of the most powerful of the old northern war lords. A series of reverses last summer preceded his flight to Port Arthur and later, it is believed, to Dairen. Nationalist troops were never able to capture him.

His return to Shantung might be regarded as significant in the light of mutiny of former soldiers of his at Lungkow.

## Hoover Seeks Leaders' Opinions

Washington, Feb. 21 (AP).—Having ascertained the views of President Coolidge on many of the government problems which will confront him when he assumes the presidency on March 4, President-elect Hoover sought today the opinion of a number of party leaders in Congress.

Senator Edge of New Jersey was invited by Mr. Hoover to breakfast in his S street home. Senator Edge in addition to being the author of a resolution now pending in the Senate for a survey of the proposed Nicaragua canal, was also the sponsor of a resolution to investigate the prohibition situation which he withdrew when Mr. Hoover announced his intention of appointing a commission to look into the same matter.

Mr. Hoover conferred at length today with Henry M. Robinson, Los Angeles banker and a close friend who has been prominently mentioned as a cabinet possibility. The conversation took up most of the forenoon and continued through lunch, which was attended also by Vice President-elect Curtis.

Secretary Mellon, whose retention as head of the treasury in the next administration is considered virtually assured, had an afternoon engagement with Mr. Hoover.

PERU AND CHILE SETTLE ANCIENT DISPUTE

Santiago, Chile, Feb. 21 (AP).—The Tacna-Arica boundary dispute, born in war and thriving through 45 years on international strife, has been settled by peaceful means.

Official announcement here today says that an agreement has been reached between the governments of Peru and Chile, the two countries involved, by which the province of Tacna goes to Peru and that of Arica to Chile.

The agreement is due to diplomatic negotiations undertaken just four months ago, after resumption of diplomatic relations by Chile and Peru at the invitation of the United States secretary of state, Frank B. Kellogg, last July.

CIGARETTE BUTT BLAMED FOR \$250,000 FIRE

Detroit, Mich., Feb. 21 (AP).—Fire believed to have been started by the carelessly flicked cigarette butt of a rum-runner last night burned two lake passenger ships and a steam tug to the water's edge and seriously damaged another excursion steamer with estimated damage of \$250,000. The ships were tied up on the Detroit river at Ecorse.

Fire department officials said they believed the fire was started by a lookout for rum-runners who had gone aboard one of the craft to watch for a signal from the Canadian shore.

FEDERAL RESERVE BOARD ISSUES STATEMENT

Washington, Feb. 21 (AP).—A Federal Reserve Board statement today showed loans and investments of member banks on December 31 totaled \$25,684,996,900, or \$755,000,000 more than on October 2. The total is \$1,437,996,900 greater than at the end of 1927.

During the three months from October 3 to December 31, loans at member banks in New York city increased \$764,996,900; in Chicago, \$14,996,900; in other reserve cities \$21,996,900 and at country banks \$21,996,900.

## Eloquent Speakers At First Dutch Banquet

Major Woods, Treasurer of United States, Explained Work of Treasury Department—Rev. Dr. Grafflin Spoke on the New Aristocracy—Henrietta Wynkoop Guild Served Turkey Dinner.

The seventh annual men's banquet at the First Dutch Church on Wednesday evening was marked by the delivery of two excellent addresses, one outlining the work of the Treasury Department at Washington and delivered by Major Walter O. Woods, the United States treasurer, and the other, "The New Aristocracy," delivered by the Rev. Dr. Samuel W. Grafflin, religious work secretary of the West Side Y. M. C. A. in New York city. An excellent turkey dinner was served by the ladies of the Henrietta Wynkoop Guild. During the evening Paul Zucca and his orchestra rendered a fine musical program while Paul led the diners in singing some of the old time favorites.

I. Stuart Williams presided as toastmaster of the evening and after the excellent menu had been tucked beneath the vests of the men and they had shoved back their chairs, lighted their cigars and prepared to enjoy the speaking to follow, called upon Philip Eiting, collector of the port of New York, to introduce the next speaker of the evening. Mr. Eiting in a humorous manner called attention to the work of Major Woods as treasurer and of the vast sums of money that he had to handle.

Major Woods in opening eulogized the memory of Washington and said that Washington felt nearly all great executives was extremely wise in the selection of his aides. His recognition of Hamilton's talents and his willingness to adopt the proposals that great genius made to him contributed more to the success of General Washington's civil accomplishments than any other act of his long career as a statesman. Hamilton's part in the preparation of the Constitution—his contributions to the press as the principal writer in the Federalist, and his assistance to the first President in shaping the policies of the first administration, caused President Washington's name to carry a great debt to the first Secretary of the Treasury.

Hamilton's Skill as Organizer.

We, who are now connected with the Treasury Department and who have assigned to us a part of the task of keeping that great establishment in working order said Major Woods, see each day—each working hour—the effect of Alexander Hamilton's skill as an organizer. He wrote the statute that established the Treasury. It distinctly names the primary Treasury officers and clearly defines their duties. Their successors have the same powers and duties today, and are but very slightly changed.

There are some few of us who think the original plan was practically perfect without any change. It is a fact that the check and balance system put into operation, pursuant to the Treasury organic act of September 8, 1789, still exists and is in daily use. The proposals for providing federal revenue, collecting the revenue, paying the funds as authorized by appropriation, and accounting for it are still accomplished as Hamilton said in the beginning these tasks should be performed. And at this point it does not appear to be improper to assert that every dollar of revenue that comes into the possession of the Treasury is accounted for and can be traced precisely as to its source and as to what becomes of it. Appropriations for funds may be unwisely or extravagantly made by Congress and contracts may and sometimes are made when better prices might be procured—discretionary acts, owing to man's fallibility, may not always be as prudently exercised by purchasing officers as might be desired—but every single dollar deposited in the Treasury can be and is traceable from official records to the individual from whom it was received, and every dollar that is once covered into the Treasury by warrant is either still in the Treasury or has been withdrawn by an authorized agent of the secretary by a signed withdrawal warrant, and each warrant is likewise countersigned by the comptroller, general or by the authorized agent for that official. The records show exactly where each dollar went, to whom, and why. The treasurer's account is balanced, proven correct at regular intervals, audited by disinterested accountants and cleared after complete scrutiny. The Hamilton system of accounts is still in use as the treasurer's general account. It is in operation all day—every business day.

During the heated political discussions that took place just prior to last fall's election, it was asserted by administration leaders that the public debt had been reduced from its high point of over twenty-six billions to about seventeen billions, and that roughly speaking the interest charge on the public debt had been

## Dollar Day in Uptown Stores Next Wednesday

Wednesday, February 27, will be Dollar Day at Kingston's uptown stores when the Uptown Business Men's Association will hold their semi-annual cooperative Dollar Day. Joining in this event will be merchants handling all lines of merchandise and every effort is being put forward to make this Kingston's biggest cooperative Dollar Day.

Not only will the merchandise be offered which sells for a dollar but higher price merchandise will also be offered at substantial reductions. Twice each year this event is held with all of the firms cooperating.

Dollar Day is intended to acquaint people with Kingston's merchant, and merchandise and on these occasions every effort is made to give the utmost in values.

This mid-winter Dollar Day is being advertised in Ulster county and surrounding towns and counties and every merchant participating is endeavoring to give values which will cause customers to become better acquainted with Kingston as a shopping center.

Many of the merchants are preparing to display on Tuesday in their show windows some of the offerings which will be on sale Wednesday and Thursday. Inspection of the windows on Tuesday evening is invited. The date should be remembered and on that day the shopping public will find it to their advantage to come to Kingston and shop at the big cooperative Dollar Day sale which the Uptown merchants are putting on.

## Ten Die from Flames in Homes

Pittsburgh, Feb. 21 (AP).—Ten persons, members of two families, burned to death in fires which destroyed their homes in western Pennsylvania early today. At Ebensburg, Mrs. Leo Mangold and her five children perished, and at Hillsboro, Mrs. Zenas Berkey and her three children died.

The five Mangold children ranged in age from eight months to six years. The three Berkey children were aged six weeks and three and four years. Both fires apparently were caused by overheated stoves.

The only two other occupants of the Mangold dwelling were Mr. Mangold and his brother, Donald, who occupied sleeping quarters on the first floor. Both escaped.

In the Hillsboro blaze, Zenas Berkey, lone survivor of the family, suffered severe burns about the face and hands.

The Carrolltown fire was discovered by miners on their way to work. They broke into the house and aroused Mangold and his brother but the blaze had gained such headway that rescue of the mother and five children on the second floor was impossible.

## \$250 For Police Pension Fund

At the annual meeting of the board of directors of the Kingston Trust Company, a resolution was adopted directing the treasurer to transmit \$250 to the pension fund of the police pension fund as a token of appreciation for the long service given that institution while the bank was carrying on its operations in the temporary quarters established in the Wilkwyck Inn on Main street.

Police Chief J. Allan Wood, in a letter to Philip Eiting, president of the Kingston Trust Company, expresses the thanks of the police department for the gift and feels certain that the board of trustees of the police pension will accept the donation with thanks.

Handma Held Up Family.

New York, Feb. 21 (AP).—Three youthful robbers, who gained entrance to the home of John Merociano, building contractor, in Richmond Hill, Queens, last night, held up the seven members of the family and escaped with \$4,000 in jewelry and cash.

Ambulance Calls Here.

The city ambulance on Wednesday removed Catherine Skop from 11 Manuilly street to the Benedictine Hospital, and Amelia Ryan from the Kingston Hospital to 50 Adams street.

## No Mail Service Here on Friday

Friday—Washington's Birthday—will be observed as an absolute holiday by the local post office department and there will be no delivery of mail that day, either in the city or on the rural routes. All of the windows at the Central Post Office and both stations will be closed all day, but the lobbies will be open for the convenience of box holders.

### ONE LONELY SOLDIER GUARDS FAMOUS FORT

Charleston, S. C. (AP)—A lonely sentinel of one private soldier today stands guard over old Fort Sumter where nearly 65 years ago began the drama of the Civil War.

The old fort, in possession of the United States government as a military post since its construction about 1812 except for the period of the civil war, today has a fortification of two 12 inch guns of which the on-man Harrison is caretaker.

Sumter has seen no active service in more than 60 years, but through the war of secession it was the center of furious fighting centering around the harbor and the city.

The first overt act which brought on actual civil war in 1861 took place here. On her secession from the union, South Carolina had required the surrender of all property within her boundaries held by the national government. Major Robert Anderson, commanding a garrison of federal troops at Fort Mifflin, withdrew his garrison to Sumter, then unoccupied, as a more easily defended point.

A federal steamer, sent to give him supplies, having been driven off by Confederate land batteries, the Confederate forces demanded immediate surrender of the fort. On Major Anderson's refusal, a terrific bombardment of more than 36 hours destroyed many of the fortifications and finally forced the beleaguered federalists to surrender and evacuate. The firing on Fort Sumter was announced to be an act of war by President Lincoln, whose immediate call for volunteers resulted in mobilization in the north and was followed by four years of warfare.

### KINGSTON COUNCIL, U. C. T. PLAN FOR BIG TIME FRIDAY

Kingston Council of the United Commercial Travelers will celebrate Friday with a Washington Birthday banquet and dance at the Governor Clinton Hotel that evening. In the afternoon Grand Counselor George H. Merkle and his staff will pay an official visit to the local council and a large class of candidates will be initiated. The meeting will be held in Pythian Hall, Broadway and Thomas street, commencing at 3:30 o'clock.

became the *throat-easy* cigarette

"Every Old-Timer knows that the HEART-LEAVES make the smoothest smoke."

[NO. 2 OF A SERIES . . . As told by Tobacco Farmers of the Sunny South]

"Round here in the foothills of the Blue Ridge, we've been raising tobacco since my grandpap was a boy. We grow the makin' for all the leading cigarettes.

"Well, Suh, a few years ago an OLD GOLD man come through here and said: 'I don't want any of your sneaky ground-leaves. I don't want any of your gummy top-leaves. I only aim to buy your heart-leaves. And I'll pay the price.'

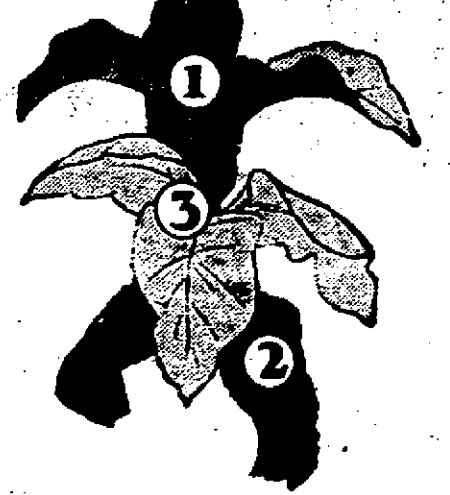

"Now every old-timer, down in his heart, knows that the top and bottom leaves may bite the throat. And he knows that the heart-leaves make the smoothest smoke.

"But when the OLD GOLD people demanded the heart-leaves, that was something new in these diggin's. That's how OLD GOLD became the throat-easy cigarette . . . that's where 'not a cough in a carload' come from."

## GUARDIANS OF THE SERVICE

ICY gales stinging the countryside with a rain-soaked blast. Swirling winter storms burying everything beneath a glistening mantle.

Traffic tied up. Telephone wires down. Communities isolated.

Then the telephone emergency crew comes into action—to restore the broken threads in the web of communication that links the smallest hamlet to all parts of this great country.

You, perhaps have seen these men in times like these, as they quickly do their part in restoring the great nerve

system of the nation. Always ready for any emergency, it is when disaster of more than usual importance occurs that their service is most apt to be recognized and appreciated. Then it is that shifts working day and night, if necessary, bring the service back to normal in the shortest possible time.

Telephone service in the Empire State is second to none in quality, speed and dependability. This, to no small extent, depends upon the devotion and attention to duty of telephone personnel.

## Fire Causes Five Children's Deaths

Chicago, Feb. 21 (AP).—Fire, started when a pot of boiling lard ignited, burned to death five children of Mr. and Mrs. John Ooms, of Lansing, Ill., last night. A sixth child and the parents were recovering from serious burns.

The bungalow home of the Ooms was destroyed. Flames from the lard pot fire to curtains, and the blaze was beyond control before members of the family reached what had happened.

Mr. and Mrs. Ooms, each grabbed a child and ran outside, their clothing ablaze. Ooms tried to go back into the house but was restrained by neighbors.

Four of the five children, the eldest 13, who were asleep when the fire started, had no chance to escape. The fifth, rescued from the building, died later of burns.

## Ask Millions from Astor Estate

New York, Feb. 21 (AP).—A new attempt to recover from the estate of the first John Jacob Astor \$39,000,000 alleged to constitute a trust made in 1816 by John Nicholas Kemmerich for the benefit of descendants, with Astor as trustee, was disclosed today through a complaint filed in federal court.

## Sheep Helpless When Turned on Its Back

There are so many ways in which sheep can and do die that it is a wonder any of them are left alive. The most peculiar method of all is that called "dying on their backs," writes A. R. GIBBON in "Atlantic Monthly." When horses or dogs roll they either roll all the way over or roll back to the position from which they started; they are unable to balance themselves on their spine, as it were. But when a sheep rolls and reaches a position with its legs pointing upward it is often unable to complete the turn, especially if it has a heavy coat of wool, as is the case in spring.

The reason for this is that a sheep's legs, being very thin, are not able to exert any pull to one side or the other and thus aid the sheep in righting itself. Its only chance is to twist itself violently, in the hope that some movement may turn it on its side. If unsuccessful in this the unnatural position for some reason causes gas to collect in its body and it begins to bloat. Finally the pressure of this gas on its heart and lungs becomes so terrific that these organs cease to function. If the ewe is found at any time before life is extinct and is turned over on her stomach she will get up, stagger off and, despite "locking" meanwhile like a misshapen balloon.

## Brides Cling to Old Beliefs About Luck

Wedding superstitions are dying out very slowly, according to a British authority on matrimonial problems.

Although the superstitious bride is now the exception rather than the rule, the question of lucky or unlucky hours, days or months still holds a place in the mind of many a young woman contemplating marriage, he said.

May is usually a lean month for weddings, and there are couples who hesitate to get married on Friday. Others shun a dread of the 13th of the month.

More remarkable still is the fact that, in the United States, the thirteenth hour is very rarely chosen for the wedding ceremony.

Green, which, worn as an emerald, is believed to be a talisman against evil, was long viewed with disfavor as a portion of the wedding dress. In recent years, it has been used more frequently.

Recently, a prospective bride stumbled on the doorstep while about to enter a register office. Had she actually fallen there is little doubt that the ceremony, which was taking place on a Friday, would have had to be postponed till a more propitious time.

## Destructive Locusts

The cicada or locust is not a locust at all, the true locust being a grasshopper. The periodical cicada or 17-year locust is a large insect about an inch and a half long with wide blunt head and with prominent eyes on the outer angles. It is black, banded and marked with some orange on the abdomen, and it has six reddish legs. It has four shiny transparent wings with network of orange-colored veins. Its life cycle is about 17 years, most of which is spent as a larva or pupa underground. The locust has long hind legs with thickened thighs and narrow leathery wing covers.

## VEYS AND AUXILIARY WILL MEET TONIGHT

Social meetings will be held by Joyce-Schrick Post, Veterans of Foreign Wars, and the Ladies' Auxiliary tonight at the "Dugout" on East Chestnut street. It is requested that members of both organizations attend.

A card party for the public will be held at the "Dugout" on Monday evening, February 25, at 8 o'clock. A good time is promised all who attend.

## Close 100 Suspected Places

Tombert, N. Y., Feb. 21 (AP).—In a series of raids prompted by a shooting alley to an alleged speakeasy here, last Saturday night, more than one hundred places in the city suspected of selling liquor were closed last night. Twenty-one persons, including a woman, were arrested.

## Parent-Teacher Council Meeting

A meeting of the Parent-Teacher Council of the city was held on Wednesday afternoon at the high school and was well attended. Mrs. Russell, the president, presided. Three life memberships for the benefit of the Student Loan Fund were bestowed upon Dr. Myron J. Michael, Mrs. Harry Dedrick and the secretary of the council, Miss Cordes. Mrs.

Boerker reported the organization of a Pre-School Circle of the Parent-Teacher Association, the first to be formed in Ulster county.

Announcement was made of a food sale to be given by the Council at the Rose & Gorman Store on March 22, and the members of the organization are asked to contribute to the same.

Miss Cordes gave a very interesting account of the recent Founders Day program.

February 22, starting at 1 p. m. A cordial invitation is extended to the public to compete for prizes. Awards will be given for winners in several events to be staged. The club-house may have a comfortable place between shots.

King George Has First Walk. Bognor, Sussex, Feb. 21 (AP).—King George has had his first real walk since he was stricken ill. He walked around his bedroom with the aid of a cane. He was weak and his nurse hovered at his side, but he successfully negotiated a turn of the room.

## DEMISEY QUILTS WHEN RUTH REPORTS TO BAY

Palm Beach, Fla., Feb. 21 (AP).—Babe Ruth's rousing tactics in the second round ended his fight with Jack Dempsey at the annual Palm Beach charity show here last night and sent the former heavyweight champion from the ring. After Dempsey had won the first round because the Babe couldn't land his blows, the home-run king started the second swinging a heavy baseball bat at his opponent's head. Taking no chances with this opponent, who disregarded boxing rules,

Dempsey slipped under the ropes. Bored for the show sold for as high as \$5,000.

## PENITENTIARY FOR STRALING STATE FUNDS

New York, Feb. 21 (AP).—William J. Carroll, former cashier of the State Motor Vehicle Bureau, pleaded guilty to pocket larceny today and was sentenced to an indeterminate term in the penitentiary by Judge Allen in general sessions. The court was informed that Carroll had issued license plates to the amount of \$1,

\$61.85 and appropriated these funds to his own use. He was indicted for grand larceny in the first degree.

Barmann a State Trooper. Henry P. Barmann was graduated on February 14, from the New York State Police School at Troy. Mr. Barmann joined the State Troopers six months ago and at present is stationed at Bayshore, L. I.

## DISFIGURED ROADSIDE.

Roadside refreshment stands and  
 gas stations in this country already  
 are sprouting up, partly as a result of  
 a campaign for their beautification  
 and prizes offered for architectural  
 quality. The motorist, however, is  
 still unregenerate and flings empty  
 bags and boxes and wrapping paper  
 out along the highway, to the great  
 detriment of wayside neatness and  
 beauty.

In England there is a society for  
 "countryside and footpaths" preser-  
 vation which is attacking the problem  
 of ugly garages and refreshment  
 stands by asking motorists to boycott  
 places that are disfigured and dis-  
 guring. "Advertisers who offend,"  
 the organization believes, "do so because  
 they feel they must—the other fellow  
 is doing it or will be doing it." Just  
 as soon as motorists stop patronizing  
 ugly places the ugliness will be dis-  
 carded.

This puts a good deal of artistic  
 responsibility on motorists. The in-  
 difference of those not offered by  
 chaotic roadside ads might counteract  
 the salutary effect of the boycott  
 practised by more sensitive motorists.  
 Possibly the English people as a  
 whole are more sensitive than Amer-  
 icans. That is suggested by this re-  
 mark of one of the men sponsoring  
 the boycott. "Clearly if something is  
 not done, the roads will soon not be  
 fit to drive on."

When was a good pavement in  
 America considered unfit to drive on  
 just because it was bordered by ugly  
 billboards or architecturally undesi-  
 rable buildings?

## BUGS OR MEN?

Dr. L. O. Howard, entomologist of  
 the U. S. Department of Agriculture,  
 is worried again about the bugs. That  
 is, bugs in general. He tells a group  
 of mosquito exterminators in New  
 Jersey that men are feebler than  
 bugs, and worse adapted to living on  
 this earth. The bugs have physical  
 and anatomical advantages. They  
 can adapt themselves better to envi-  
 ronment than we can. They can hide  
 easier and fly better. They have no  
 long period of helpless infancy, as we  
 have—a baby bug can take care of  
 itself as soon as it's born. Their  
 wants are simpler.

It sounds terrible. Yet we're not  
 convinced that man's entirely out of  
 the race and the pesky little crawlers  
 and flyers are going to overrun the  
 earth. They've been here a good deal  
 longer than we have, according to the  
 scientists. And what use have they  
 made of their prior occupancy? What  
 is the present situation? Man is mul-  
 tiplying faster than ever before.  
 Moreover, man is producing and  
 using insecticides faster than ever be-  
 fore. About once a week some labor-  
 atory worker produces a new and  
 more potent dose.

Instead of the insects eating us all  
 up, we're squinting a hundred kinds  
 of liquid and gaseous deaths all over  
 them. And if we were able to sur-  
 vive our scratchy cave days, we guess  
 we'll survive hereafter with an arse-  
 nial, of powders and squirt guns in  
 every home. Let Dr. Howard sym-  
 pathize a little with his bugs.

## HOT AIR.

Recently discovered letters have  
 caused the historian Emil Ludwig to  
 change his estimate of the Emperors  
 Frederick, mother of the deposed  
 Kaiser Wilhelm. In his book on  
 "Wilhelm II" the author held the em-  
 press largely responsible for her son's  
 fall. He would like to revise that  
 opinion now, after reading such let-  
 ters as this, written by her to a close  
 friend:

"I really feel like an old hen that  
 has hatched a duckling instead of a  
 chicken. It seems to me that he  
 (Wilhelm) rushes in where angels  
 fear to tread. I wish I could put a  
 padlock on his mouth for all coun-  
 cels where speeches are made in  
 public."

It hardly seems fair, though, to  
 keep on rubbing it into the pitiful  
 old emile at Deuts, even when he com-  
 mits new follies of speech. Especial-  
 ly when one remembers how the same  
 kind of talk used to be considered in-

spired oratory and statesmanship be-  
 fore the war and by Americans as  
 well as Germans.

William hasn't changed, but the  
 world's perspective has changed. Most  
 of us were pretty dumb. It took a  
 world war to wake us up to a lot of  
 things. And sometimes we half-re-  
 spect that we're not altogether awake  
 yet.

It is a curious rule of the House  
 of Commons that a male member  
 must have on a hat when addressing  
 the Speaker, who has now disposed  
 of a troublesome question by an-  
 nouncing that the rule for a male  
 member rising in "his" seat does  
 not necessarily apply to a member  
 rising in "her" place, and so women  
 members may speak uncovered. The  
 practice in our Congress is exactly  
 the reverse, male members being  
 always uncovered and female wear-  
 ing hats if they wish to do so.

The Bureau of Standards of the  
 Department of Commerce reports dis-  
 covery of a new sugar. It is obtained  
 from "a starch-like substance found  
 in dahlias, chrysanthemums, and  
 other plants," and goes by the de-  
 lightful name of "diffructose anhy-  
 dride." It does seem, as we take a  
 leisurely look around, that there are  
 enough sugars already for practical  
 purposes. Still, we may be able to  
 stand another, if the beauticians and  
 tobacco people don't object too  
 strongly.

One has to be pretty well along in  
 years to have seen the beautiful Lily  
 Langtry when she left her English  
 social triumphs to appear on the  
 American stage, and the announce-  
 ment of her death at the age of 76  
 has perhaps not resulted in eye-  
 witness reminiscences in all cases.

## ESKIMOS AND COLDS.

Perhaps you are inclined to smile  
 at the request of the Medical Officer  
 of Health when he suggests that if  
 you have a "cold" and that you keep  
 as far away as possible from other  
 people, as the breathing, and particu-  
 larly the coughing can throw the or-  
 ganisms of "cold" a considerable dis-  
 tance, and other folks become in-  
 fected.

Drs. P. Helmbecker and E. I. M.  
 Irvine-Jones tell us that "during a  
 trip up the west coast of Greenland  
 they noted that every native in a cer-  
 tain settlement had a cold, while in  
 others there wasn't a single native  
 affected."

Investigation showed that just pre-  
 vious to the arrival of these physi-  
 cians and their party, that some of  
 the natives had been mixing with out-  
 side folks.

In the settlements where there  
 were no colds when the doctors and  
 their party arrived, within from 48  
 to 72 hours after their arrival all the  
 natives developed a "cold" (an acute  
 respiratory infection, as these doctors  
 call it) with sneezing, coughing, and  
 spitting.

Further north, among the polar  
 Eskimos, where it was certain that no  
 outside contact had been made that  
 year, there was never the slightest  
 evidence of these infections at the  
 time of the arrival of the doctors and  
 party, but within 72 hours nearly  
 every Eskimo in the settlement de-  
 veloped an infection.

I believe that when you consider  
 the statements of these physicians,  
 you will agree that it is not the cold  
 weather that causes these colds, but  
 the presence of these "cold" organ-  
 isms in the air the Eskimo had to  
 breathe when the doctors' party ar-  
 rived and lived in the huts with them.

As you know the indoor life of the  
 Eskimo in this ill ventilated hut, does  
 not cause the "cold" if the organisms  
 are not about.

With us in civilized communities  
 the "cold" organisms are always  
 about us and if we get crowded to-  
 gether in a room of 80 degrees F., at  
 which temperature our own protec-  
 tive organisms seem to lose their  
 fighting power, then these "cold" or-  
 ganisms get their chance to develop  
 and a cold results.

The lesson is obvious.

 spent Thursday at the home of Mrs.  
 H. Steinbach.  
 The father and son banquet of the  
 men of the Presbyterian Church was  
 held on Friday evening, February 8,  
 in the lecture room of the church.  
 About 80 men and boys were present  
 to enjoy this get-together occasion.

The Rev. E. C. Tamblin, of Grace  
 M. E. Church, of Newburgh, was the  
 outstanding speaker of the evening.  
 Several others gave interesting talks,  
 among whom were the Rev. J. E.  
 Appley, W. X. Vello and Frank  
 Johnston. "The Melody Makers" or-  
 chestra played some delightful music.

Mrs. Malcolm Dunlop had charge of  
 the banquet. Mrs. Luett Schantz  
 and Mrs. States Salties were in  
 charge of the dining room. They  
 were assisted by a number of ladies  
 of the church. A number of ladies  
 also helped in the kitchen.

Five carloads of apples were ship-  
 ped the past week to Holland from

 spent Tuesday at the home of Mrs.  
 M. Mania.

The Pythian Sisters held a valen-  
 tine social at the E. of P. Hall, Mar-  
 lborough, on Wednesday evening,  
 February 12. A good time was en-  
 joyed by all. Games were played and  
 refreshments were served. The hall  
 was very prettily decorated with red  
 hearts, the usual sign of Valentine  
 Day. As each one entered she was  
 presented with a valentine card. Mrs.  
 Lena McConnell had charge of the  
 entertainment committee. Mrs. Grace  
 rendered a solo, "Topsy Turvy," while  
 Mrs. Fred Dunn presided at the

## STONE RIDGE.

Stone Ridge, Feb. 21.—The young  
 people of the Reformed Church  
 will give a play at the Grange  
 Hall on Wednesday evening, Febru-  
 ary 27. The title of the play is  
 "Aaron Slick from Pumpkin Creek."  
 It is a comedy and farce from be-  
 ginning to end. The prices are  
 moderate and within the means of  
 everyone. The play proceeds will  
 be divided with the local Grange.  
 Grangers are asked to bring their  
 friends.

The Men's Community Club will  
 meet at the Reformed Church at  
 6:30 o'clock on Thursday, February  
 28. The usual supper will be served  
 after which all will retire to the  
 Grange Hall for the evening of en-  
 tertainment. All members are urged  
 to be there.

Every taxpayer is urged to be at  
 the Grange Hall on Thursday eve-  
 ning, February 28, when a meeting  
 will be held in the interest of the fire  
 district. Several speakers will be on  
 hand and a preliminary report will  
 be given by the committee appointed  
 at the last meeting.

Services at the Reformed Church  
 on Sunday at the usual time. The

## Getting Ferries Ready for Spring

The ferryboat A. F. Beach, running between Greenlands and Caledonia, is being made ready for the opening of the river in the spring. She is being thoroughly overhauled and will receive a new coat of paint. The ferryboat Hudson-Athens, plying between Hudson and Athens, is also being made ready for operation this spring.

Navigation at this port is confined to the ferry transport, which has been able to operate all winter, and

to the tug Rob, which under the ferry company's management is keeping the river channel open.

Shelton and Mt. Tremper—Sunday school at Shelton at 10 a. m. The lesson is in Matthew 16:15-18 and John 21:15-19. Preaching at both churches at usual hours. The Rev. J. B. Stephens is to be the preacher and will also give a talk to the children at both churches. The matter of a Sunday school will be brought up at Mt. Tremper. All are invited cordially to join in these services of worship.

Uster Park and Union Center—The services on March 3 will be marked by the observance of the Holy Communion. Holy baptism will also be administered, should there be candidates, and candidates for membership will be welcomed.

Poverty and Wealth—None is poor but the mean in mind; the timorous, the weak and unbelieving; none is wealthy but the affluent in soul, who is satisfied and contented.—Tupper.

Card of Thanks.—I wish to extend my thanks and appreciation to my many friends and relatives, especially Kingston Dry Dock Employees, Blue Sox Ball Team and Mary Haley, for the many acts of kindness and sympathy during my recent bereavement, also for the beautiful floral tributes.

## THE WHY of SUPERSTITIONS

By H. IRVING KING

### LUCKY AND UNLUCKY DAYS

NO SUPERSTITION is more widespread than the belief in lucky and unlucky days. It dates back to the Romans, and while the empire of the Caesars has vanished the superstition survives. Most men, perhaps, have what they consider their lucky and unlucky days—days on which they would hesitate to embark on a new enterprise or days which they would choose for so doing. This arises from the fact that man is essentially egocentric, and in his experiences thinks he notices that a certain day seems propitious to his affairs, while a certain other day is unpropitious. "What's your lucky day?" is not unusual as a casual inquiry among Wall street men.

The almost universal idea that Friday is an unlucky day undoubtedly originated in the fact the Crucifixion took place on that day. This superstition regarding Friday was formerly very strong among sailors; and is today among those manning sailing vessels, or rattle-trap tramp steamers who have to wrestle with the "great forces of nature for their lives." Masters of such vessels would not willingly choose Friday as a sailing day; or if they did, might have trouble with their crews. But it has been observed that sailors on the great ocean liners, whose vast powers seem superior to winds and waves, show little or no disinclination to sail on a Friday.

## How It Started

By JEAN NEWTON

### THE "CALENDAR"

"CALENDAR," the word which designates the chart by which we reckon and arrange the divisions of the year into months, weeks and days, has a story in its name.

It comes to us from the Latin "calendarium," an account book, which goes back to "calends" or "Kalends"—and there we have the story.

The Romans made a threefold division of the month into Kalends, Nones and Ides. The "Ides of March" is familiar to every reader of Shakespeare's "Julius Caesar." In certain months the Nones fell on the 7th, the Ides on the 15th; in other months the Nones came on the 6th, the Ides on the 13th. But the Kalends came always on the 11th of the month.

Since the first and most important division of the year is its charting into months, each of which began with the Kalends, the evolution of the word "calendar" is easily comprehensible.

**Farm Bureau Market Study Trip**

County Agent Albert Kurdt of the local Farm Bureau announced final plans today for the study trip to market terminals and the movement of produce in New York city to be made by a hundred or more farmers from upstate on March 6, 7, and 8. A large group of growers are planning to go on special coaches the day before, to attend the trip in New York city. Several county groups have indicated a lively interest in the matter and when the group finally assembles at the Hotel Albert it is certain to take a number of the big buses to carry them about on the heavy schedule which has been arranged through the local Farm Bureau.

Word has just been received that in addition to watching the arrival and handling of milk and close contact with actual auction sales and produce movements on the piers in lower New York that a number of interesting side trips have been arranged such as a visit to an ocean steamer or the navy yard and special sight seeing trips at the close of the first day with a lecturer in each bus. Two evenings have been left open and special help will be given to anyone desiring assistance in selecting an evening of entertainment. This is to avoid heart failure on the part of those desiring to choose one show from a list of forty.

Other stops will be made at milk plants, express terminals, livestock receiving points and the Federal Reserve Bank. Railroads have granted reduced rates for parties of 25, and details of the complete trip are being completed and made available at the local Farm Bureau Office. Reservations must be made in advance and immediately.

**PASTOR BRANDORFF TO ANSWER QUESTIONS**

At the evening service of Redeemer Lutheran Church on Sunday, the pastor, the Rev. O. E. Brandorff, will answer a number of questions dealing with the Bible and with the Christian life. The questions will take place of a regular sermon. Among the interesting questions which he will endeavor to answer are:

Why is it that sometimes children from Christian homes go wrong?

What does it mean to forgive? Can we forgive without forgetting?

What is Lent?

Is not the Christian Church declining?

What is Spiritualism?

Why did Jesus Transfigure?

Why did Jesus ask that the cup be taken from Him if it were possible?

If there are so many hazards in getting married would it not be better to remain unmarried?

Should God not permit other grounds for divorce than that mentioned in the Bible; for it seems cruel to expect a person to live with another having an unbearable disposition?

What does it mean to believe?

Members and friends are invited to place their questions in the Question Box in the church or to mail them into the pastor.

The confirmation class will meet on Saturday evening this week instead of Friday because of the holiday.

**Mission Services Friday.**

The regular Friday evening service will be held as usual at Bedford's Upper Room Mission, 562 Broadway, near the West Shore, at 7:30. Special interesting features planned for every meeting. An inspiring message, testimonies, singing, instrumental music and prayers, make up the program. A cordial welcome to everyone.

**Tree Rings' Formation**  
 The forest service says that when weather, moisture and soil conditions are good the rings on trees are wider, and there is a higher proportion of summer wood in the ring.

**Highly Prized Decoration**  
 The Croix de Guerre, created for the European war, is generally regarded as the most highly prized of the French military decorations.

**NEW PALTZ**  
 New Paltz, Feb. 21.—Mr. and Mrs. Arthur Ingraham and family visited Mrs. Ingraham's father, Dewitt Van Kleeck, at Bostine on Sunday.  
 Some New Paltz people entertained with music at the Valentine party given by the Goodfellowship Society in the Obliville chapel Thursday.  
 The Ulster County Y. M. C. A. under the direction of C. E. Hall, is carrying on an excellent program of work for boys. Recently they held their annual older boys' conference here in New Paltz and on Tuesday they rounded up the boys from eight to fifteen years of age. Through the kindness of the management the opera house was the scene of an animated crowd who enjoyed a variety of moving pictures, including the story of David Patman's trip to Baffland. After the pictures the boys were addressed by Dr. Vanden Berg, who spoke on "How Much Are You Worth?" The afternoon was thoroughly enjoyable and will be repeated in a few weeks. Mr. Cole, Mr. Gregory and the scoutmaster, the Rev. E. D. Miner, provided cars to convey the eighteen Scouts to Kingston to the rally last week. And Mr. Cole, Mr. Connolly and K. DuBois and a taxi transported the fellows home.

Rosell DuBois is having some papering done in his home.  
 DuBois Grimm is the owner of a new model Ford sedan.

Mr. and Mrs. Joseph Hasbrouck, Jr., entertained guests at their home on Sunday.

Many people in New Paltz have felt that hydrophobia is a disease that only occurs in newspaper stories or in the dim and shadowy past, or in distant parts of the world. In the past year there have been several cases in New York state. If a member of any family is bitten by a dog, the warning is to call a doctor at once. Although a dog may appear in the pink of condition it may have the rabies, and if it has and bites a person or another dog and if vaccine treatment is not promptly administered, the person or dog bitten will have rabies. Four dogs in New Paltz that from appearance it was thought possibly might have rabies have been killed and their heads sent to the State Department of health laboratories at Albany. In each case the dog was found to have the disease.

The publicity committee of the New Paltz Rod and Gun Club state that several parties have been fishing through the ice and some fine catches are reported. With very little snow

to shovel to find the ice they can put out their "big-eyes" in a very short time. The committee also say they have quotations on Hungarian partridge at \$22 a pair and on partridge at \$24 each but are not going to restock with either this year, but will be glad to give the address of the raiser to anyone interested.  
 Daniel Gerow called on friends in Modena Thursday.  
 Mrs. William Decker was a caller in town Friday.  
 Mrs. DuBois Grimm spent Saturday in Modena.  
 A number of people from New Paltz were among many others to enjoy a pleasant evening at the home of Mr. and Mrs. H. A. Harcourt Thursday at Zena.

**St. James' Missionary Society.**  
 The Women's Missionary Societies of St. James' M. E. Church will meet with Mrs. C. E. Wonderly, 45 Emerson street, Friday, February 22, at 2:30 p. m. Mrs. J. Myers will conduct the devotion. Mrs. Dunn will give Chapter 1 in Foreign Text Book. Mrs. Black will sing two Negro Spirituals. As this is the annual opening of the mite boxes all who are unable to be present are asked to send in their mite boxes. Service is the key word for this roll call.

**Dates in Commerce**  
 More than 1,000 different kinds of dates are known to the Arabs, but from 10 to 15 have proved commercially profitable in the United States.

## Events Around The Empire State

**Saratoga Falls (N.Y.)**—A pickerel, three feet, two inches long, and weighing 2 1/2 pounds, was taken from Cayuga Lake recently on a tip-up, by James R. Murphy of this village. It is said by local anglers to be the largest pickerel ever caught in the lake although 11-pounders have been comparatively common this winter.

**Rochester (N.Y.)**—Balthasar Stock has lived in this city for 74 years. In all that time he has spent only one night away from home. He has changed his residence only once—to the house next door to where he had been living. He is unmarried.

**Glen Falls (N.Y.)**—Two Glen Falls girls recently have taken their final vows with the Sisters of the Assumption at Niagara, Que. A daughter of Mr. and Mrs. Frank Lareau became Sister Joseph du Sacre, while a daughter of Mr. and Mrs. John Haxel will now be known as Sister John Chrykone.

**Ithaca, N. Y., Feb. 21 (N.Y.)**—When a train carrying Professor H. C. Pringle of the rural engineering division, extension department, State College of Agriculture, Cornell University, comes to a sudden and unscheduled stop, the rest of the passengers may bemoan their lot, but Professor Pringle goes to work. Recently a train on which the professor was traveling came to such a stop. The engineer was unable to find the cause of the trouble, and Professor Pringle brought his tool kit from the baggage car and went to work on the engine. In a short time the trouble was remedied and the train proceeded on its way. A few days later, Professor Pringle was traveling to Auburn on a train drawn by a gasoline engine, and again was jarred from his seat by a sudden halting of the train. The engine was cold, the train crew reported, but no one seemed to know why. Out came the professor's kit and in a short time he lifted a piece of ice from the carburetor. The train went on.

**Washington, Feb. 21 (N.Y.)**—California may be the home of the motion picture industry but, according to the Department of Commerce, New York state is something more than a mere visiting place. Of 142 establishments throughout the country engaged in the production of motion pictures, 78 were located in California and 21 in New York; according to the department's biennial industrial census. Other states took their places as follows: New Jersey, six establishments; Ohio, 6; Illinois, 5; Pennsylvania, 4; Massachusetts and Michigan, 3 each; while 16 were divided among ten other states.

**Semi-Prezious Stone**  
Lapis lazuli is a stone whose characteristic color is a rich azure blue, occurring usually in small, rounded masses and frequently showing speckles of iron pyrites. Lapis lazuli is probably the favorite of the ancients, and is still much valued for ornamental purposes.

## Business Girls' Club Supper

The members of the Business Girls' Club of the Y. W. C. A. held a very enjoyable supper meeting on Wednesday with the Rev. W. P. Kemper as speaker for the evening. Mr. Kemper stressed in his talk the recognition of the great values in life and urged the girls to reflect on their Christian faith and Christian living. He spoke in particular of his personal influence on those with whom he came in contact. The great fact is that we cannot live just as an individual, each woman in this world is responsible for the making of her own character and for the way in which she faces life. Mr. Kemper's talk was very much appreciated by the members of the club.

Wednesday, February 27, will be Pirates' night at the Y. and Captain Kidd, Captain Applejack and the Pirates of Penzance will be presented in person. A full attendance of the club is desired.

## Avalanches and Floods in Balkans

London, Feb. 21 (AP).—Floods and avalanches have taken a heavy toll of life and property in the Balkan states and neighboring countries. Disrupted communications, however, prevented the full extent of damage being known today.

Particularly was this true of the area through which the Danube and its tributaries run, but enough was learned from Thrace and Macedonia to indicate calamitous inundations there.

The Peloponnese section of Greece and Thessaly also were stricken with the overflow of the Vardar, the Struma, Nestos and Maritza rivers. Several villages in the valley of the Struma were entirely covered with water and at Serres a military bakery and large railway bridge were carried away. Thousands of acres of valley land are under water.

So great is the general destruction and disturbance of communications that the Greek government has postponed the impending senatorial elections until April 14.

In Slovenia, Yugoslavia, a number of avalanches, one of which caused seven deaths, were reported. Reports, however, were meager.

Zero weather still prevailed in parts of the continent with no sign of abatement. In England the mercury stood ten degrees higher than yesterday, and was almost everywhere above freezing. A gradual thaw was in progress.

## COLDS MAY DEVELOP INTO PNEUMONIA

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action: it soothes and breaks the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the infection, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germ. Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

## ELEANOR GUNN ON FASHIONS

### The Sleeveless Dress Has Been Acclaimed From The Southlands

New York—One has only to follow the fashion reports from smart society to realize that the sleeveless dress has captured society. It may be made of silk or chiffon but to be beloved a dress must be without

Flowered Chiffon Printed in Such Tones as Brown, Orange and Yellow Is Employed in a Flounced Frock With Harmonizing Bead Incrustations at the Waistline. A Sleeveless, Back-Dipping Jacket of Black Lace Collared with Chiffon Completes the Costume.

sleeves. Not only because it is practical, but also because it is smart, one must have a jacket with such a

frock. In some cases it is the jacket that is sleeveless, the long light sleeves of the frock serving to cover the arm. Curious though it may seem, it is the sports frock rather than the formal one which is more likely to be sleeveless. There are also many exceedingly effective sleeveless blouses designed to be worn with suits so matter what type coat they may have.

The Paris openings did not particularly stress the sleeveless frock for day wear but America is frequently a law unto itself in such matters. It is naturally a correct fashion here.

Printed crepes and chiffons remain highly desirable at the present time and for spring. These designers differ in character but rather small quaint patterns seem to have prevailed over modernistic effects although some of these are naturally approved. Lamin made interesting use of some modern motifs but the general design impression is that of a rather naive pattern are best. This is in keeping with the revival of interest in the clothes of 1890.

#### ACCORD

Accord, Feb. 21.—Mr. and Mrs. Myron Coddington of Liberty, N. Y., spent last Sunday afternoon with Mr. and Mrs. Lewis H. Miller.

Accord Council, No. 51, Jr. O. P. A. M., will serve an oyster supper on Friday evening, February 22, at the I. O. O. F. Hall, beginning at six o'clock. The evening will be spent with games and dancing.

Henry Lawrence and William Osterhout spent last week with John Lawrence at St. Joseph, N. Y.

The County Woman's Club will serve a boiled dinner Thursday, February 28, at 12 o'clock. Following the dinner will be the regular meeting of the County Woman's Club. Mrs. Rancus Smith and Mrs. Cleve Rider will have charge at the dinner.

Mrs. Thelma Plester of Rhinebeck is spending a few days with her parents, Mr. and Mrs. George Coddington.

#### Novelty Dance at Stone Ridge

A special novelty dance will be held at Stone Ridge Grange Hall on Washington's Birthday, Friday, February 22. The committee in charge has arranged to have Paul Zucca furnish a special orchestra of five pieces. Dan Bittner will be at the piano; Herman Roosa, trumpet; Thomas Barnhill, of the Kingston Theatre orchestra at the drums; on the saxophones Purcell and Moser will show what they can do. Old fashioned dances as well as modern dances are on the program. Refreshments will be served in the dining hall upstairs. Dancing from 9 p. m. to 1 a. m. The committee have been kept busy with inquiries for tickets and a good crowd is looked for. The Stone Ridge Grange Hall has one of the finest dance floors in that section and all are assured a good time. The public is invited.

An exhibition of home culture, arts and crafts will be the outstanding attraction of Stockholm in the summer of 1930.

## Some New Shapes That Frame Faces

### Prims to Shade Eyes, Folding Off Face, or Suggestion at Side.

A direct influence of the up-in-front and down-in-back skirt has visibly affected the millinery silhouette, observes a fashion writer in the Cincinnati Enquirer. Evidences of it are shown in these new chapeaux, becoming to the majority of faces. They are brims to shade the eyes or brims folding sharply off the face or crowns with merely a suggestion of a brim at the sides.

Satin is a smart fabric for midseason wearing up to Easter. Combinations also are modish, such as satin and wool tricot or felt and wool jersey. Angora embroiders felts in a galaxy of colors on sports hats for resort wear.

The most recent interpretation of the lengthened back is illustrated in a trim, appropriately named the

Some of the New Chapeaux, Becoming to Majority of Faces.

Sou'wester. Another version is shown in beige felt with a brim draped at the sides and a crown of angora braid. Flattering for face framing is a shape which has a brim curving gracefully away from the eyes. On this model of yellow beige felt, the crown is decorative with a motif of angora. Similar in outline is a little brown felt cloche, having a crown cut in irregular line superimposed over a band of wool jersey and wearing a perky bow of felt.

One of the first straw is a model in which a alsa shape has a brim long at the sides with an incrustated motif in felt of brown and tan.

Extremely smart for town wear is a sphinx hat in which black satin ribbon is seamed and draped in a little wing above the ears.

The tricolor, launched anew this year, is seen in entire hats as well as in trimmings. A little skull cap combines brown, beige and chartreuse felt in a daring and unusual manner.

And Miss Earhart's answer is another question: "What have you?" As a matter of fact there is no such thing today as an approved flying costume, she explains in an article written for Harper's Bazar.

"Ten years ago I could have described a flying costume," she says. "It would have consisted of helmet, goggles, leather jacket, breeches and some sort of high boots. There were no traditions but those of war-time flying to follow, and both men and women adapted the war-time costume to suit civilization needs."

The only reason she adopted a masculine sports costume for her transatlantic flight was one of necessity, the article explains.

"For instance there was no step from the postroom to the door, and I couldn't have jumped into the plane in a skirt. Further, we were crowded, and sliding around between gas tanks wouldn't have left much of a ladylike costume."

#### Variety of Colors in Materials for Winter

A wide variety of popular shades now awaits approval of purchasers. There is a bottle green which is very popular. The silver gray of the silver fox is duplicated in smart frocks. There is a shade called vanilla which, in reality, is purple. Bronze velvet is a feature of the smart shop showings. Add every tint of gray and beige and you have only a minute part of the color collection available.

#### BALDNESS

CAN BE AVOIDED by using the new Baldness Remedy. It is a powerful hair restorer and will grow new hair on bald spots. It is a sure cure for baldness. It is a sure cure for baldness. It is a sure cure for baldness.

Paris  
There is a tendency to get away from black for spring dresses but women who prefer it have the authority of big dressmaking names for their choice. Gypsy shows a youthful dress of black faille with shaped bands interlacing on skirt and corsage. The belt is placed at a nearly normal waistline.

#### OUR DAILY PATTERN.

A Pretty Frock for Mother's Girl.

6378. Plaits and scallops combine to make this style attractive. The front outline a vestee above a plaited skirt section; the back is in one piece. One may finish the waist with short sleeves trimmed with upturned cuffs, or with added wrist length sleeve portions, gathered to a narrow, band cuff.

A neat rolled collar completes the neck. Plain blue and checked blue taffeta were combined for this dress, with blue binding at the free edges. Wool or cotton crepe may be used with vestee, collar and cuffs in contrast. This design is also desirable in cotton prints and other wash fabrics. The pattern is cut in four sizes: 6, 8, 10 and 12 years. To make the dress for a 12-year as pictured in the large view will require 2 1/2 yards of 36-inch material, together with 1/2 yard of contrasting material for facing on vestee, collar and cuffs. If made with long sleeves it will require 3 1/2 yards of material and the contrasting material.

A pattern of this illustration mailed to any address on receipt of 15c in coin or stamps by the Pattern Department, The Freeman, Kingston, N. Y. Be sure to state the size wanted.

Fashion Book Notice.  
Send 15c in coin or stamps to The Freeman for our up-to-date Fall and Winter 1929 Book of Fashions showing color plates, and containing 500 designs of ladies', misses' and children's patterns, a concise and comprehensive article on dressmaking, also some points for the needle (illustrating 50 of the various simple stitches), all valuable hints to the home dressmaker.

PRIZE LETTER FROM UTICA, N. Y.

### Mrs. Hughes Tells Secret of Nice Things at Little Cost

"I have used Sunset Dyes with wonderful success for many years. With a family of seven children and little money I proudly feel that my home was always cozy, bright and cheerful, and my children neatly and comfortably dressed. I was able with the indispensable, miraculous help of Sunset Dyes to turn out things really attractive and wearable. Certain coats have kept every member of the family warm at some time, made over, cut down and changed in color with Sunset. Old soft felt hats dyed with Sunset make attractive little girl bonnets. Worn shirts, dyed pretty bright shades with Sunset make attractive dresses and nice blouses, and fine aprons. From bleached cloth four bags dyed with Sunset, I have made rompers, bloomers, dresses, aprons, boys' blouses, kitchen curtains, bureau scarfs and even patchwork quilts. "Sunset-dyed, cheap, unbleached muslin makes attractive gifts of luncheon sets, bureau scarfs, pretty towels. A few cents invested in Sunset Dyes will make things just as bright and good as new; it is so easy and so quick to use."—Mrs. Thos. A. Hughes, Utica, N. Y.

## HEALS ECZEMA IN 7 DAYS OR LESS

Or Your Money Back

Here is a surgeon's wonderful prescription now dispensed by pharmacists at trifling cost, that will do more towards helping you get rid of unsightly spots and skin diseases than anything you've ever used.

Not only does this great healing antiseptic oil promote rapid and healthy healing in open sores and wounds, but boils, abscesses and ulcers that are discharging are almost immediately relieved and cleanly healed.

In skin diseases its action is little less than magical. The itching of eczema is instantly stopped, the eruptions dry up and scale off in a very few days. The same is true of barbers' itch, salt rheum and other irritating and unsightly skin troubles.

You can obtain Moore's Emerald oil in the original bottle at any modern drug store. It is safe to use, and failure in any of the ailments noted above is next to impossible. Maben & Walker can supply you at any time.

## Flashes of Life Sketched in Brief

(By the Associated Press.)

New York—The King's seat for the Lone Eagle in the name of the actress of America Irene Franklin is sending as a wedding present to Anne Morrow a Louis XV chair presented by descendants of the monarch to Joseph Jefferson and later given by him to Richard Mansfield.

Boston—Charles Lindbergh has filed notice at City Hall of his intention to marry. The lady's first name is Anne. Charles is a chauffeur. The future Mrs. Lindbergh is now Miss Peterson.

New York—Americans are talking faster and faster all the time, says Louis J. Goldstein, who was a delegate to a Shorthand Reporters' Convention. He places the average increase at ten words a minute in the last 20 years.

Havana—Americans have been flush here with thousands of dollar bills. Some such notes are among \$45,000 worth of valuables lost by tourists this season, found and returned by the police.

Boston—Ordered to return "at the residence" 96 cases of liquor police deposited them on the front lawn and promptly Federal agents appeared and seized them again. Federal Judge Lowell has ordered them returned again, this time "within the residence."

Washington—Light on the money Dorothy and Lillian Glash have received under motion picture contracts comes from their appeals over income taxes. Lillian had a contract in 1925 for \$7,942 a week. Dorothy for \$1,500 to \$2,000 a week with a share in profits.

New York—After three years a country has been found for a man without a country. Flint Morton, 21, spent 238 days in jail at Plattsburgh, N. Y., rather than reveal his nationality after he was arrested for stealing train rides. Finally he was freed and a job was found for him on condition that he report to immigration officers monthly. He failed to do so. It has been ascertained that he is an Austrian and he is to be deported.

Washington—In the last five years 120 members of the Regular Army and 41 members of the Reserve Corps have been killed in airplane accidents. The figures came from the Secretary of War in making recommendations for the replacement of obsolete craft.

## Powin Has Salt Lake

Larger Than Dead Sea

Five thousand feet above sea level in Persia is to be found a huge, salty, inland lake. It is known as Urmla, and is 200 miles around, covering an area of 1,000 square miles, and contains some 50 billion gallons of water.

Nearly 500 miles long by some thirty wide, it completely dwarfs the Dead Sea, something like a mile and a quarter lower in level, and contains a greater percentage of salts in solution.

Urmla is fed by a number of small streams and is the catch basin for a considerable area, but as it has no outlet whatever except evaporation the salt that comes in stays in. Constant leaching by the streams brings in a continuous supply of salt, and given enough time results in a salt lake, for while the evaporation takes care of the water it must leave the salt behind.

And this is what has happened to Urmla. For years and years it has been becoming saltier and saltier, probably exceeded in this respect only by Karabogaz, the salt water annex of the Caspian sea. No fish live in it.

## Many English Words

Are Arabic in Origin

The Arabs have given the English-speaking people more words to express their thoughts than any other of the Semitic, Asiatic or African groups.

"When in summer you wear your 'mohair' or 'cotton' suit, avoid 'alcohol,' enjoy 'sherbet' with 'candy' and 'coffee' with 'sugar,' or lie on a 'sofa' or 'mattress' reading a 'magazine,' you are drawing on that vocabulary," Prof. Philip K. Hitti of Princeton told the Linguistic Society of America.

"In a complete English lexicon, Arabic would figure in no less than 103 entries under the letter A alone." Many of these words have come into English indirectly through the romance languages, he said, but Arabic has served as a medium for transmitting a number of words of Greek, Latin, Persian, Sanskrit, Egyptian, Turkish, Coptic or Hindustani origin, such as apocrite, azure, borax, camphor and ebony.

## St. Augustine's Chair

The wonderful old chair of St. Augustine, in which the new archbishop of Canterbury sits on the occasion of his enthronement, has had a long history. Tradition asserts that it was formerly the throne on which the old kings of Kent were crowned, but it is generally agreed that it dates, at any rate, from the commencement of the Thirteenth century. It is composed of three pieces of Purbeck marble in the design of a Roman state chair and stands in the chapel of the Corona in Canterbury cathedral. Each archbishop of Canterbury is enthroned in this chair, thus signifying his assumption of the primacy of England.

## No Law Against Thinking

Even very small girls have their quarrels and following one of them this little girl came home to her mother much exercised over their little difficulty.

"Mother, Mary Lou is a cat," the one little girl said, probably echoing a term she had heard older people use.

"Oh you mustn't say such things," her mother reprimanded, "you mustn't say things like that about your little playmates. Lots of times we may think things that we shouldn't say."

"Well, then, I think Mary Lou is a cat," was the reply.

## Old Elephants

A traveler says that an elephant when old goes on a high cliff and commits suicide, but it is doubtful if any considerable number of them hurt themselves from cliffs in this manner. It appears to be true, however, that the herds of wild elephants have their own natural cemeteries in the swamps or jungles, to which the old and weak crawl to die. Some of these places are known to the natives of Africa and are valuable sources of ivory. Other wild animals are said to adopt this practice of going to particular spots to die.

## Dad's Dilemma

"How's the family?" Inquired Jumbo of Bing, his happily married friend from the other side of town.

"Well, my children are at a difficult age just now."

"Difficult? Why, they've all passed the measles and teething age, haven't they?"

"Long ago. But you don't know a father's troubles. My children are at the age where if I use slang my wife says I'm setting a bad example. And if I speak correctly, the kids think I'm a back number. Which would you do?"—Kansas City Star.

## Signs Long in Use

The history of signs goes back to ancient Egypt and reaches America by way of Greece, Rome, Italy, France, Germany and England.

Signs were among the first industries to avail themselves of signs. Signs leading off with a bush swinging before the tavern door. From it came the adage "Good wine needs no bush." The cross was used for Christian wayfarers and the sun and moon for pagan travelers.

## Efficient for Street Signs

A beauty expert says one should walk in such a way that one seems to float. Well, we saw one of the superlative old girls in our neighborhood trying to do it and she looked like a horse walking headway in a ground swell.—New Orleans States.

## Golden Wedding Day of Van Buren

His Near Approach Brings Forth a Question From the Archdeacon at the Conclusion of His Address to the Kingston Rotary Club.

After several speeches meetings, Rotary put on a double header at the luncheon on Wednesday, when two orders were put through their paces. They were the Rev. Clarence Brown of the Catskill Rotary Club and Judge A. H. Van Buren of this city. Mr. Brown's topic was "Mind Your Own Business," with emphasis on having the right kind of business to mind and then minding it.

Mr. Van Buren had no topic, but talked about Washington, (who had his limitations, according to the speaker), Lincoln, Rotary, lawyers, criminals, prohibition, business men, law, law observance, kindness, and, finally, his own approaching golden wedding anniversary. Of the latter he said:

"On the walls of my library at my home there hang a number of portraits of distinguished dead men and women. Mrs. VanBuren like all women, is an inveterate gambler. Her bridge club meets at our home and the members ask me about the portraits, especially the women. I tell them of all the pretty girls of the town that I am head over heels in love with. One fool of a woman said to me, 'Mrs. Van Buren must be very jealous. If my husband talked like that it would drive me crazy.'"

"I said to the woman: 'Ayeshah said to the prophet 'When Khadizah came to you she was a widow; I was a maid. She is old; I am young. She is faded; I am beautiful. I know I

can practice all the arts and wife of love; she no longer can. You love me better than you do love, do you not?'—Me. When I had not one friend in the world, she was my friend. When all others believed not in me, she believed. When all others deserted me she remained true. By Allah, so."

"Next week Mrs. Van Buren and I celebrate our golden wedding anniversary. Will you join me in drinking a health to the best woman in the world?"

The Rotarians drank and the meeting ended.

## WALKER VALLEY

Walker Valley, Feb. 21—A novelty dance will be held on Friday night, February 22, for the benefit of the Ladies' Auxiliary of the fire company.

Mr. and Mrs. John Verhoeve and son, Raymond, of Garfield, are spending a few weeks with their friends, Mr. and Mrs. D. C. Jansen.

A petition is being circulated for a state road through Walker Valley. It was started by E. E. Murray.

All are pleased to hear Kenneth Marshall is feeling so well.

Mr. and Mrs. William Doyle and son, Emmel, and daughter, Margaret, also Mrs. Doyle's sister are spending several days in Canada.

Walter Schrig and mother spent the week end in Weehawken. They visited their daughter, Mrs. Wesley Gray in Coraon.

Mr. and Mrs. George and children spent Wednesday afternoon with their friends, Mr. and Mrs. James Cox, of Walden, finding him improving.

Mr. and Mrs. C. Verhoeve, and daughter and son-in-law, Mr. and Mrs. William W. Lord of Garfield called on the former's son and family, John Verhoeve.

Mr. and Mrs. Emery Hasbrouck and children of New Paltz spent Sunday with Mr. and Mrs. George N. Evans.

## Coe With C. of C. Of Queensboro

Louis S. Coe, until recently secretary of the Kingston, Chamber of Commerce, has been appointed co-operative secretary of the Queensboro, Greater New York, Chamber of Commerce, a prosperous and influential organization in a much larger community than Kingston. Mr. Coe's many friends here who know and appreciate his ability and the useful work he has done without any thought of trappings, will be greatly gratified at this recognition of his ability.

A few of words is no proof of wisdom.

## RECOLITE PLATES

We are introducing these plates. They fit better and are more natural than rubber plates. They are absolutely odorless and do not make the mouth sore. Recolite plates are almost unbreakable. They are very beautiful. Call at our office and see samples of them.

Special prices for introduction.

Blowing Up Ice on Damme.  
Belgrade, Jago-Slavic, Feb. 21. After all other efforts had failed, Jago-Slavic Army Engineers blew up heavy artillery today with huge sections of ice blocking the Danube, between Belgrade and Panchevo in order to make a channel for steamers which have been impeded for the past fortnight.

**Financial and Commercial**  
New York, Feb. 20 (AP).—Heavy buying of the steel shares turned the course of prices upward in today's stock market after an early period of irregularity attributed to uncertainty in the credit situation.  
Trading was fairly heavy for a pro-solvent session, with short covering again playing an important part in the operations. Some restraint was apparent because of the meeting of directors of the New York Federal Reserve Bank after the close, but the majority of observers looked for no change in the rate at this time.  
Call Money renewed at 6 1/2 per cent and was expected to go higher in view of the heavy holiday demands, and the necessity of banks readjusting their positions at the Federal Reserve. Time money and commercial paper rates held firm.  
U. S. Steel common returned to its old role as a market leader by climbing nearly 6 points to 19 1/2, against a low of 14 1/2 on Monday, on buying based on reports that current operations were around 98 per cent of capacity. Bethlehem moved up to a new high at 9 1/2.  
Adams Express soared 10 points, Allied Chemical 7 1/2, National Tea 6 1/2, Commercial Solvents and Crosley Radio 6 1/2, and Radio, (Old), National Distillers Preferred, American Home Products, Lackawanna Railroad and Advance Rummy Common sold 4 to 5 1/2 points higher.  
Jersey Central, which changes hands infrequently, broke 30 points below the previous sale. Liquidation also developed in the airplane industry. Curtiss dropping more than 10 points, Wright 3 American and Foreign Power fell back 5 points on the announcement of new stock financing.

**New Deficiency Bill Submitted**  
Washington, Feb. 21 (AP).—The House today submitted to the Senate a bill to amend the act of August 1, 1916, known as the "Deficiency Act," which would provide \$151,599,000 for emergency use of government departments. One of the largest items is the \$75,000,000 for tax refunds.  
The only reference in the measure to prohibition enforcement is in an item of \$25,010 for salary increases to the prohibition bureau. A warning that a filibuster might be waged against the bill in the Senate unless it includes more money for enforcement has been sounded by Senator Glass, Democrat, Virginia.

**Employee Loses Teeth; Company Loses Lawsuit**  
Popular Bluff, Mo.—An attempt to demonstrate to a jury that rubber is a commodity produced was of high quality when Edward Babcock two front teeth were used for selling alleged rubber. Babcock placed one end of a piece of rubber in his mouth and asked a jurymen to pull on the other. He did and two of Babcock's teeth rolled across the courtroom floor. An outbreak of laughter came from spectators in the courtroom as Babcock opened his mouth and disclosed the gap.

**Ice Cream Now Popular**  
Washington.—Switzerland has refused America's choice of ice cream as a national dessert. The Commerce department has been informed by its Swiss representative.  
Before the war ice cream could be obtained only in the better restaurants and clubs of Switzerland. Among the common people it was almost unknown.  
Then several big dairymen started a campaign to popularize this American dessert. As a result, Switzerland now consumes 125,000 gallons, or an estimated per capita quota of one eighth quart, each year.

**Friday Evening, February 22, the Junior Order of Catholic Daughters of America will hold a regular meeting in Knights of Columbus Hall, corner Broadway and Andrews street, at which time the initiation degree will be conferred on a class of candidates. Senior members of the Catholic Daughters are invited to attend.**

**No Army Practice Tonight.**  
The army team of the American Legion will not practice tonight, because arrangements could not be made to procure the Salvation Army Hall, where games are to be played this evening. "Tex" Murray, athletic officer of the Legion, expects to have the hall for Friday night. It is very likely that the Army and Navy will practice then.

**Look on the Lookout**  
Look is always on the lookout for the fellow who has a cut-throat and some enough to show it. This however, can not wholly satisfy the sickle god. The young man must be eager to find his place, and give to the work it demands—American Legion.

**Employee Loses Teeth; Company Loses Lawsuit**  
Popular Bluff, Mo.—An attempt to demonstrate to a jury that rubber is a commodity produced was of high quality when Edward Babcock two front teeth were used for selling alleged rubber. Babcock placed one end of a piece of rubber in his mouth and asked a jurymen to pull on the other. He did and two of Babcock's teeth rolled across the courtroom floor. An outbreak of laughter came from spectators in the courtroom as Babcock opened his mouth and disclosed the gap.

**Ice Cream Now Popular**  
Washington.—Switzerland has refused America's choice of ice cream as a national dessert. The Commerce department has been informed by its Swiss representative.  
Before the war ice cream could be obtained only in the better restaurants and clubs of Switzerland. Among the common people it was almost unknown.  
Then several big dairymen started a campaign to popularize this American dessert. As a result, Switzerland now consumes 125,000 gallons, or an estimated per capita quota of one eighth quart, each year.

**Secure "Friendly Enemy"**

The original saying, "I fear the Greeks bearing gifts" appears in Vergil's "Aeneid." The reference is to the siege of Troy. The Greeks besieged the city of Troy without success. Finally they resorted to stratagem, offering a huge wooden horse to the Trojans as a gift. The horse was taken into the city, and while the Trojans slept the warriors, with which the horse was filled, came forth and opened the gates for their Greek comrades. The conclusion is that one should fear an enemy most when he seems friendliest.

**"Penny" Is Unofficial**

The term "penny" has been in general use in this country since the Revolutionary war, but it has never been the official designation of any coin minted in the United States. It is and has been a recognized coin of Great Britain and the coinage of England was used in this country for a number of years after the Revolution, and the use of the term became an established custom at that time and the name became applied to the cent as it was about the same value. The first cents actually minted under the Constitution appeared in 1793.

**Market for Fruits And Vegetables**

New York, Feb. 21 (AP).—(State Department of Agriculture and Markets).—The moderate supply of Texas spinach unloaded on the local wholesale district today sold readily and prices tended upward in a firmer market. Sales on Carly Survey spinach were made at 75c-81 a bushel basket.

California cauliflower was in moderate receipt. Good quality stock met improved demand and values averaged higher. Crates of eight and fourteen heads jobbed out at \$1.25-\$2.25, principally at \$1.75-\$2.

Receipts of New York state fruits and vegetables were light. Trading was limited and market values were not clearly defined. The undertone was dull.

Commercial cold storage warehouse throughout the entire country on February 1 reported 1,631,000 barrels, 12,347,000 boxes and 3,158,000 bushel baskets of apples on hand. Combined cold storage holdings were 25 per cent heavier than a year ago, but only 5 per cent above the February 1 average for the past five seasons.

Cold storage stocks of apples in barrels were 39 per cent below average for this time of the year, but were one-third greater than last February's supply. Boxes showed a 25 per cent increase over the record of a year ago and over the five-year average. Bushel baskets were 38 per cent more plentiful than on February 1, 1928, and were almost double the average basket holdings.

Supplies of Florida tomatoes were moderate. Fine quality large offerings met a fair outlet, but unattractive and small stock dragged. Fancy pack of 144 tomatoes peddled out at \$2.84. The choice pack of 180 realized \$1-\$2.50.

Offerings of green peas from Mexico were moderate. The market held steady, particularly on fancy stock. The demand was moderate. Wholesale business was transacted at \$4.75-\$6 per crate of about 40 and 45 pounds. Florida peas packed in 28-quart hampers sold at \$1.50-\$3.

The market held steady on southern lettuce and Romaine. Trading was fairly good on fancy but limited on poor. Florida one and one-half bushel hampers of Big Boston lettuce brought \$1.50-\$4.50. Romaine commanded \$1.50-\$3.50.

**A CLEAR COMPLEXION**

Ruddy cheeks—smiling eyes—most women can have. Dr. F. M. Edwards for 20 years treated scores of women for liver and bowel ailments. During these years he gave his patients a substitute for calomel made of a few well-known vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. Know them by their olive color. These tablets are wonder-workers on the liver and bowels, which cause a normal action, carrying off the waste and poisonous matter in one's system.

If you have a pale face, yellow look, dull eyes, pimples, coated tongue, headache, a listless, no good feeling, all out of sorts, inactive bowels, you take one of Dr. Edwards' Olive Tablets daily for a time and note the pleasing results. Thousands of women and men take Dr. Edwards' Olive Tablets—now and then to keep fit. 15c, 30c and 60c.
